Emily Kondziola
Frontend Developer

emilygracekondziola@gmail.com

EXPERIENCE

ReStock — *Frontend Developer*

MARCH 2019 - PRESENT

Remote

- Lead a development team of four people to build the iOS app from the ground up in React Native

- Integrated the backend REST API, coded the request an item feature and styled the app with CSS

- Collaborated with designers and developers to build ReStock's external-facing website in React and deployed through Netlify

Equilo, Inc. — *Research Analyst*

JUNE 2017 - NOV. 2019

Remote

- Lead exhaustive research to find country systems working in gender equality

- Wrote content analysis on gender equality in large scale water and sanitation infrastructure

- Organized, maintained, and grew Equilo's open source data library
